Welcome Message

Welcome to the APCM-ISPD 2027 Meeting in Busan, Korea

Dear Colleagues and Friends,

On behalf of the Organizing Committee and the Korean Society of Nephrology, it is our great pleasure and honor to invite you to the **12th Asia-Pacific Chapter Meeting of the International Society for Peritoneal Dialysis (APCM-ISPD 2027)**, to be held in **Busan, Republic of Korea**, from **September 30 to October 3, 2027**. The official scientific meeting will take place from October 1 to 3, preceded by the Pre-Congress Program on September 30.

The Asia-Pacific Chapter of ISPD has played a pivotal role in advancing peritoneal dialysis across our region through scientific exchange, clinical education, and close international collaboration. The year 2027 will mark the 25th anniversary of the Asia-Pacific Chapter. As we celebrate the 25th Anniversary of the ISPD Asia-Pacific Chapter, we look forward not only to reflecting on a quarter-century of remarkable achievements, but also to shaping the future of peritoneal dialysis together. We hope that APCM-ISPD 2027 will serve as a historic milestone, bringing together the global PD community to inspire innovation, strengthen collaboration, and create a shared vision for the next generation of kidney care.

The meeting is being prepared by peritoneal dialysis researchers and clinicians from the Korean Society of Nephrology, in close collaboration with colleagues from the Asia-Pacific region and beyond. We warmly welcome nephrologists, PD nurses, researchers, trainees, and all healthcare professionals dedicated to improving the care of patients receiving peritoneal dialysis.

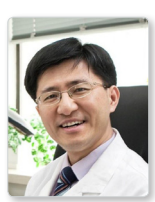

The scientific program will focus on the future of peritoneal dialysis, including patient-centered care, home dialysis, digital health, artificial intelligence, precision medicine, infection prevention, catheter care, quality improvement, and sustainability. Through plenary lectures, invited symposia, clinical debates, oral and poster presentations, and interactive educational sessions, we hope to create a dynamic platform for sharing knowledge, exchanging experience, and building new collaborations.

Busan, Korea's vibrant maritime city, offers not only spectacular coastal scenery and warm hospitality but also exceptional accessibility for international travelers. Through Gimhae International Airport, Busan is directly connected to many major cities across the Asia-Pacific region, including Tokyo, Osaka, Fukuoka, Taipei, Hong Kong, Shanghai, Bangkok, Singapore, Hanoi, Ho Chi Minh City, and Manila, making travel to the meeting both convenient and efficient. Combined with its world-class convention facilities, outstanding cuisine, and beautiful autumn weather, Busan provides an ideal setting for scientific exchange and international friendship. In early October, the city enjoys pleasant autumn weather, making it an ideal destination for academic exchange and friendship.

Most importantly, APCM-ISPD 2027 will be a gathering of colleagues united by a common vision: to advance peritoneal dialysis and improve the lives of patients with kidney failure across the Asia-Pacific region and around the world. As we celebrate 25 years of the Asia-Pacific Chapter, we invite you to join us in shaping the next 25 years of innovation, collaboration, and excellence in PD.

We sincerely look forward to welcoming you to Busan in October 2027.

With warm regards,

Kook-Hwan Oh, MD, PhD
Chairman of the Organizing Committee APCM-ISPD 2027
Busan, Republic of Korea

Bum Soon Choi, MD, PhD
President of the Korean Society of Nephrology
